

Learn English- Have fun

I had some nice interviews with the participants, students and teamers at the Discovery Summer Camp at the BLS – University in Hamburg. They told me how they feel in this camp and what activities they have done here.

At first I ask them what they think about Hamburg and everyone was like “It’s so clean here and I like all these old buildings they’re very beautiful”.

Then I asked if they like the campus and if yes what they like here:

“ I like how they put something old fashioned with something modern together, I mean the building of the university seems very old fashioned and at the inside you see it isn’t old, it’s very modern. “, Vivi told me. Dana, one of the students here said “I like that everything is so green and colorful here, it’s amazing.”

About their rooms at the hostel the most of the participants told me that they think the rooms are too small for 6/7 people, but they all think that the rooms are okay for one week and that they look better than rooms at other youth hostels. “On the first day it was really bad but then it tastes better and better. “, said one of the participants about the food.

On the first day some participants even on the second day said that the camp is harder then they expect, because they do a lot of activities and walk a lot. They do “morning activities” after a long walk to the university and in the afternoon they have excursions everyday, so they have to walk very long, while the weather is very hot.

For example they visited one of the public universities, went to a radio station, visited the musical school here in Hamburg and more.

Not everybody liked it, but after the second or the third day everybody was smiling and they even don’t wanna go home anymore. “I met so many nice people here and have so much time with them here, so I don’t wanna leave them“, a lot of the participants, well every participant said.

At least I ask them if they think this week could help them in the future “Yes, sure. I learned lot of new vocabulary and its easier for me to speak English now.” , even everybody thinks.

I would suggest everyone the Discovery-Summer-Camp because you really learn how to speak English better and you’ll have a lot of fun during this week because you’ll meet new adorable people, the participants and the teamers.
