

My Crazy Time with Participant Discovery Summer Camp

(by Tabea Ziemann)

I had many Impressions for example to meet new people, improve my English and have a lot of fun. I want say you something about the experience from me and the other people in the discovery summer camp.

I was very nervous I am sure I had annoyed my parents for this reason, I was 30 minutes to early on the subway station. Some girls have to sitting on the floor in the ICE included me. Their names are Lara, Cagla, Tabea V., Christina. It was very weird because Tabea, have the same name like me but she is very nice. The greeting from the teamer (the students that organized the Camp) was very nice. All the teamers were very friendly and motivated. All people say they like all of them. We don't have regular times for meals sometimes we eat our dinner at 5.30 pm and sometimes we eat at 9.00 pm. We have gone on many trips and all of them were very struggle but nice for example the Hamburg city tour on foot. The Trip that I like at most was the guitar rock concert.

I like the discovery summer camp all the peoples are nice, friendly and crazy. We have learned many new things. I am sure my English is better now.
